SHIVAM MEHER

ASPIRING PYTHON DEVELOPER | B.Sc. COMPUTER SCIENCE — 2026

Mumbai, Maharashtra, India | 63723xxxxx | mehershivam@gmail.com

PROFESSIONAL SUMMARY

Motivated B.Sc. Computer Science student graduating in 2026 with beginner-level knowledge of Python programming and basic familiarity with Flask, MySQL, HTML, CSS, and JavaScript. Interested in learning software development and building practical applications. Seeking an entry-level opportunity or internship to gain hands-on experience, strengthen technical skills, and grow as a Python Developer.

TECHNICAL SKILLS

Programming: Python — beginner level
Web Technologies: HTML, CSS, JavaScript — basic knowledge
Framework: Flask — beginner level
Database: MySQL — basic knowledge
Learning Interests: Backend Development, Web Applications, Problem-solving

ACADEMIC PROJECT

CareerPilot AI — Placement Preparation Platform

Technologies used/learned: Python, Flask, MySQL, HTML, CSS, JavaScript, Gemini API

- Worked on a student project designed to support placement preparation.
- Practiced building web application pages and backend functionality using Flask.
- Worked with user login, registration, and dashboard features.
- Explored Gemini API integration for generating interview questions.
- Practiced using MySQL for application data management.

Keep only the project features you have personally implemented or can explain in an interview.

EDUCATION

Bachelor of Science in Computer Science (B.Sc. CS)

Viva College, affiliated with Mumbai University

Expected Graduation: 2026

STRENGTHS

Willingness to learn • Logical thinking • Problem-solving • Adaptability • Attention to detail

CAREER OBJECTIVE

To start my career in software development, apply my foundational programming knowledge, learn from experienced developers, and gradually build the skills needed to contribute to reliable software applications.
